

# Advanced Dreamweaver CS4

## ***About the Course***

### **Designed for**

This is a course with a high level of practical content, aimed at those who wish to take their knowledge of Dreamweaver CS4 to the next level.

### **Teaching Approach**

The teaching approach contains a mix of lectures, practical, and one-to-one work and varies according to the people attending. For the most part, candidates are able to work at a pace which best suits them, and emphasis is placed upon quality of learning, rather than quantity.

### **Pre-requirements**

Attendees should be familiar with using Adobe Dreamweaver CS4 or similar application. Prior completion of our 1-day Introduction to Dreamweaver CS4 course is recommended but not compulsory.

### **Course Material**

A large part of this course is spent developing professional-looking web pages using the advanced features of Adobe Dreamweaver CS4 with a set of specially prepared exercises and projects. Professionally presented course notes are provided and these may be retained for reference afterwards.

### **Duration**

This training program is one-day in duration.
